

Civil/Environmental Graduate Engineer

Environmental Resolutions, Inc. (ERI) is a leading engineering, planning, environmental, and surveying consulting firm that has been providing professional services to our clients since 1990.

ERI has a career opportunity for a degreed Civil/Environmental Engineer who seeks to become an active employee in an energetic, well-established company. This position includes responsibility for the planning, design and construction engineering of municipal infrastructure including stormwater and utilities (water & sewer), in addition to various site-development and municipal projects for both municipal and private clients.

This is an excellent opportunity for a qualified candidate to work in a dynamic and thriving work environment. ERI provides a generous benefits package, including medical, dental, and 401k.

RESPONSIBILITIES AND DUTIES:

- Assist with the preparation of investigations, project development, field surveys, designs, and various tasks associated with stormwater projects, capital improvement, and recreation.
- Oversight and completion of specific portions of assigned projects.
- Assist with the preparation of proposals.
- Assist in the preparation of design plans including CADD work and specifications.
- Assist in construction project administration.
- Assist in Planning/Zoning Board reviews of private development projects.
- Prepare design calculations and gather and compile data.
- Facilitate and maintain open communication with project team members, clients, and contractors.
